Comments by Kent Madin: This list purports to show the magnitude of my evil behavior. I have, over the course of several years, contacted most of the people on this list. The vast majority would not describe themselves as harassed or stalked, just contacted. Only a handful of the people on this list (Davenports, O'Reillys and de Blonville and their most ardent supporters) even knew they were being included. Many of those included on this list were both appalled and angry to find their names associated with this effort to have me jailed. Several have demanded retraction and apology.

Again, these people were contacted in order to confirm information about the O'Reillys et al precisely because the O'Reillys et al refused to answer the simplest questions about their professional claims. The contacts were made well within the parameters of speech protected by the US Constitution and within the parameters of journalistic practice. This is a case where one person's dogged persistence is being declared evil in order to defame and deligitimize the person asking questions. It is an old but ultimately unsuccessful strategy.
